(3) Set up for use with games and applications

- 1) Make sure you are signed into your PSN account and that system software version 4.50 or higher is installed.
- 2) Connect the drive to the PS4 using the included USB cable.
- 3) Wait 5-10 seconds for the PS4 to recognize the drive.
- 4) Go **[Settings]** and select **[Devices]**.
- 5) Select **[USB Storage Devices]** and then select **[Novus]**.
- 6) Select **[Format as Extended Storage]**.
- 7) Select **[Next]**, then **[Format]**. On the next screen, select **[Yes]**.
Note: It can take a few minutes for the process to complete.
- 8) Select **[OK]** to complete the process.

The Novus will now be the default location for newly installed games and applications. Existing games and applications will remain on the internal hard drive.

(4) Safely disconnecting the Novus

- 1) Press and hold the  button until the Quick Menu appears.
- 2) Select **[Sound/Devices]**.
- 3) Choose **[Stop Using Extended Storage]**.
- 4) Disconnect the drive from the PS4 and select **[OK]**.

Note: This process must be completed before removing the drive while the system is powered or in rest mode.

(5) Backing Up the PS4's internal drive (optional)

Note: You cannot utilize this function in addition to running games and applications from the Novus. The PS4 only allows external drives to be used for one purpose or the other. You will receive an error if this process is attempted after formatting for extended storage.

- 1) Make sure you are signed into your PSN account.
- 2) From the main menu, go to **[Trophies]**.
- 3) Press the Options button on the controller, and then choose the **[Sync Trophies With PSN]** option.
- 4) Connect the Novus to one of the PS4's USB ports.
- 5) From the main menu, select **[Settings]**, then scroll down and select **[System]**.
- 6) Select **[Back Up and Restore]**, and then choose the **[Back Up PS4]** option.
- 7) Check the box next to **[Applications]** if you'd like to back up games and applications (recommended). Then, select **[Next]**.
- 8) Enter a name for the backup file. Select **[Back Up]**.
- 9) A progress bar will show the current status of the back up.

Please note that this process can take several hours to complete if you are backing up a large amount of data.

There is a video tutorial for this process available at:

(6) Restoring a backup

Note: This process will replace the contents of the PS4's internal hard drive with the contents from the backup file.

- 1) Make sure you are logged in to the same PSN account that was used to create the backup file.
- 2) Connect the Novus to one of the PS4's USB ports.
- 3) From the main menu, select **[Settings]**.
- 4) Scroll down and select **[System]**.
- 5) Select **[Back Up and Restore]**, then choose **[Restore PS4]**.
- 6) Select the backup file that you'd like to restore.
- 7) The system will indicate that it will begin the initialization process. Choose **[Restore]** to continue.

Please note that this process can take several hours to complete if you are restoring a large amount of data from the backup file.
